Tech Tools

UNC Check-In App

This mobile app, developed at Carolina, facilitates taking class attendance. Specify time intervals during which students can check using their phones.

🔍 Contact Suzanne Cadwell (scadwell@email.unc.edu) about joining the pilot. uncheckin.unc.edu

Zoom Web Conferencing

Hold online meetings using high-quality video, audio and screen-sharing with up to 100 participants. Consider for guest speakers and as class alternative during inclement weather.

🔍 Use your Onyen to get started at zoom.web.unc.

Plagiarism-Deterrent Software

The University is exploring options for software that will help promote student understanding of, and compliance with, academic integrity standards. Will also enhance instructor feedback options on written assignments.

🔍 Contact Andy Lang, (alang@email.unc.edu) OASIS, for more information.

Youcanbook.me

Online appointment platform that allows you to set up and manage student appointments easily.

🔍 Free basic version at youcanbook.me

Kahoot

Kahoot is an online instructional game and quiz platform. You can create quizzes, then students can sign in to the game and play together.

🔍 Free for instructors and students. kahoot.com

Qualtrics

Online survey and reporting tool that allows you to quickly create surveys and produce reports.

🔍 Use your Onyen to get started at qualtrics.unc.edu.

Adobe Creative Cloud

Integrate this powerful suite of media-authoring tools with course assignments to help students create professional-looking documents, presentations and video.

🔍 Free accounts for faculty, students and instructional staff. More at adobe.unc.edu

Gradescope

Scan, code, and grade problem sets, worksheets, quizzes, or exams. Provides flexible options for feedback to students, question-level statistics, and reduces overall grading time.

🔍 Contact Andy Lang, (alang@email.unc.edu) for more information. gradescope.com

Microsoft Office 365

In addition to cloud-based versions of popular Microsoft Office tools such as Word, Excel, and Powerpoint, new tools include support for team-based collaboration and document storage.

🔍 Available to all students, staff, and instructors. More at office365.unc.edu

My Course Analytics Dashboard

Learn more about diverse student populations in your courses and how they are performing. Data is available for courses back to Fall 2010.

🔍 Pilot will be expanded soon. Sakai orientation module required. More at cfe.unc.edu/mcad.

PollEverywhere

Web-based polling and quiz system. Students can use their phones or computers to respond, and polls can be embedded in instructor presentations (Powerpoint and Keynote).

🔍 Free to Carolina instructors and students. Learn more at poll.unc.edu
