

The Ripple Effect: Becoming a Multiplier

Sheri Jordan MD
Professor of Radiology
Medical Alumni Distinguished Teaching
Professor UNC School of Medicine
@SJordanMD

Ripples expand across water when an object is dropped in

Ripple effect occurs when one event causes a series of other events to occur

Ripple effect often used colloquially to mean a multiplier effect

Aug 2019 as physician and clinician educator
practicing fulltime UNC Hospitals

42 major journal accepted manuscripts
21 major meeting accepted presentations

Promoted to full professor teaching track
Awarded distinguished teaching professorship

Teaching As Research: Am I Making a Difference?

42 major journal accepted manuscripts
67 faculty, 19 learners, 37 institutions (senior)

21 major meeting accepted presentations
17 learners, 4 jr faculty first authors (senior)
